A Coaching Professional works with a wide range of individuals and teams across organisations to empower them, enhance their professional performance and foster an environment where they can thrive.

This programme is designed to give learners meaningful development by providing practical training, theoretical knowledge and industry awareness that can be implemented quickly to have a positive impact on learners and their organisations. The programme will help delegates branch into one-to-one coaching, team coaching or leadership coaching.

Learners will be able to realise the benefits of coaching and leading in a non-directive manner, helping people to improve their self-belief and self-awareness, overcome barriers of remote working and be better equipped to adapt to change.

Upon successful completion of this programme, delegates will have achieved the Coaching Professional level 5 Apprenticeship Certificate.
